Political Announcement.

I hereby announce myself a candi-
date for the office of State Repre-
sentative, subject to the decision of
the voters at the coming primary,
August 20, 1918.

WALTER SANDQUIST.
Walthill, Nebr.

The republican state convention is
called to meet in Lincoln on Tues-
day, July 30th. Dakota county is
entitled to six delegates at this
convention.

It is a commendable human virtue
to select the best article to be ob-
tained when there is a choice. This
is true of both men and merchan-
dise. We select that which we
consider best suited to our needs.
The farmer, when he needs help,
looks for a man experienced in farm
work, because a man familiar with
farm requirements and customs is
the only kind who can do the work
he wants done in the way he wants
it executed. The merchant employs
apt and experienced clerks. Hod
carriers would not make satisfactory
stenographers, and it would be
impossible to thresh wheat with a
typewriter. Each of us possesses a
peculiar fitness and ability to do
some sort of work extra well. In
the selection of men to fill county
offices the same methods should be
employed as in choice of men for
other work. Their suitability for
work expected of them must be
taken into consideration; if it is not,
we are apt to place a square peg in
a round hole, with the consequent
result that it won't fit. The peo-
ple of Dakota county will this fall
have an opportunity to place in the
office of county clerk and clerk of
the district court a man of demon-
strated ability and fitness for the
place in the person of J. S. Bacon,
with whom nearly every property
owner in the county is acquainted,
and who enjoys the respect of ev-
eryone. That Mr. Bacon possesses
ample ability and exceptional qual-
ifications for the office will not be
contradicted by anyone. His selec-
tion to the office will be the best
kind of insurance against incompe-
tency and inexperience. He will
not be a square peg in a round
hole.—South Sioux City Record.

HOMER

The Misses Mayme Holsworth,
Marjorie McKinley and Daisy Thack-
er came home from Wayne Normal
Wednesday to spend the Fourth with
home folks. Mayme and Marjorie
returned Friday. Daisy remained
several days.

The chautauqua this year will be
more interesting than ever, not only
from an educational stand point but
to those who are interested in
National problems. There will be
official war pictures and talks by
men from the Trenches. Prof. De-
mel in looking over the program,
discovered that the Cambridge play-
ers were to give "The Rivals," which
was given on the lecture course here
last winter. The Prof. will endeavor
to have the play changed so that
there will be no one disappointed.

Mrs. Kramper came from Lincoln
to join her husband who is the man-
ager of the Beardshear & Davis lum-
ber yards, recently sold by them.

They will move into the house just
vacated by E. H. Wisen and family.
Mrs. Chace of Wakefield is a
guest of her nephew, John Harris
and family.

Miss Jane Johnson of Ord is visit-
ing her sister, Mrs. Luie Rockwell
and family and other relatives.

E. H. Wisen and family departed
Saturday for Malcolm, this state, to
take charge of a R. R. office. They
were given a farewell party Friday
evening at the Mrs. Anna Shull home
by the Remoh club of which Mrs.
Wisen was a member. The hus-
bands participated in the good time.

Walter Rymel, U. S. Cavalry, came
home Saturday on a few days fur-
lough.

Leo Wagner, another Homer boy
serving his country in the Medical
section, is home on a short furlough.

Geo. Wilkins and family visited
home folks in Homer Sunday.

Charles Bristol, jr., and family
came from Iowa Sunday to visit
home folks, his two brothers, Will,
from the Atlantic Coast Navy and
Albert, from the Pacific Coast De-
fense are also visitors at home.

Mrs. Will Leamer hurt one of her
hands Tuesday in the electric win-
ger, it being quite a painful hurt.

Robert Jones and family celebra-
ted the Fourth, Thursday at Winne-
bago, Saturday at Dakota City and
Sunday at Riverside, Sioux City.

HOMER DEMONSTRATION NOTES

Miss M. Hall, Home Agent.

This week the canning and cheese
making will be carried on as fol-
lows:

Mrs. Charlie Holsworth, Homer,
July 8th.

Miss Green (at the home of Jim
Green), Hubbard, July 9th.

Mrs. M. Logue, Jackson, July 17th.

Mrs. D. L. Leap, Hubbard, July
11th.

Mrs. H. Cronk, Waterbury, July
12th.

Mrs. Chris Sorensen, Waterbury,
July 13th.

The work will start at 2 p. m.
Anyone interested is invited.

With harvest and haying in pro-
gress and hungry men to feed, you
may be interested in this dessert.
(You might think it is like the
strawberry short cake, where the
cake was made of corn and rice
flour and the strawberries were
cherries. The only thing that
wasn't a substitute was the name
and the cook did not have the
heart to change that.) This how-
ever, not only uses substitutes, but
is a great help in using left over
bread that so often accumulates.

Suet Pudding.

1 egg.
2 c. dry bread crumbs.
1 T. melted fat.
1/2 c. molasses.

1/2 c. sour milk.
1 c. raisins.
1 T. any substitute flour.

1 tsp. soda.
1 tsp. cinnamon.
1 tsp. cloves.

Nothing if desired.
Put dry bread through food
grinder and measure. Mix flour,
soda, spices, bread crumbs and rais-
ins. Beat the egg, add molasses,
milk and fat, combining the two
mixtures, beat well, put into a
greased pan and steam one hour.
Set in the oven for 5 minutes and
serve with lemon sauce.

Lemon Sauce.

1 1/2 c. water.
1 c. light syrup.
2 T. starch or other thickening.
1 lemon.

Boil the water, syrup and starch
until thickened. Cut the lemon in
thin slices and add to the sauce.
Lemon extract might be used in
place of lemon. Heat and serve
on the pudding.

(All measurements are level.)

THIN, FRAIL PEOPLE SHOULD TAKE TANLAC

Many Nebraska People Report Astonishing Gains in
Weight in Short Time—Powers of Medicine Conclu-
sively Proven—Men and Women, Old and Young, Ben-
efited Alike by "Premier Preparation."

ONE of the most noteworthy features in connection
with the introduction of Tanlac, and the one
that stands out more prominently than any other, perhaps,
is the very large number of well-known men and women
from all parts of the state who have recently reported an
astonishing and rapid increase in weight as a result of its
use.

When so many well-known people of unquestioned integ-
rity make statement after statement, each corroborating
the other, the truth of such statements can no longer be
doubted.

Thousands have testified that this famous medicine has
completely restored them to health and strength, after
every other medicine and the most skilled medical treat-
ment had failed.

A case in point is that of Bert
Brown, engineer on the Chicago,
Burlington & Quincy Railroad, who
lives at 420 South 19th street, Lin-
coln, and who states that for three
years his health was so seriously im-
paired that he was almost a nervous
and physical wreck. Soon after
taking Tanlac his digestion rapidly
improved, his pain disappeared, his
nerves became calm and steady and
he gained thirty pounds.

Another interesting case is that of
E. A. Weldy, the well-known man-
ager of the Emory Hotel in Scotts-
bluff, Nebr., who says that he was
suffering from a complete nervous
breakdown and was in such a serious
condition that he despaired of ever
regaining his health and strength,
but upon taking a few bottles of
Tanalac his health was fully restored
and he made a gain of eighteen
pounds.

Mrs. Arch Allen, of 3322 North
65th street, Omaha, who formerly
lived in Evansville, Ind., and was at
one time a nurse in a hospital near
that city, makes a statement which,
coming as it does from one of such
wide experience in relieving suffer-
ing, is of unusual interest. Mrs.
Allen says that she became so weak
that she couldn't lift her ten months'
old baby, her nervous system was al-
most a wreck and she was often con-
fined to her bed for weeks at a time.
She states that upon the advice of
the other nurses at the hospital she
took Tanlac with the result that she
was soon entirely relieved of all her
troubles, became well and strong and
increased twelve pounds in weight.

N. H. Church, of 1117 Davenport
street, Omaha, says that he suffered
so much from rheumatism, scrofula
and liver trouble that he fell off
thirty-five pounds, and he left arm

hurt so bad he could hardly raise it
to his head. After taking Tanlac
he improved so rapidly in every way
that he gained ten pounds on two
bottles.

Ira W. Polesky, a physician at
Union Pacific Railroad, who lives at
2033 Elm street, Omaha, says that
he was so run down and worn out with
indigestion and other troubles that
he could not work long without feel-
ing exhausted. A few bottles of
Tanalac fully restored his strength
and energy, he gained ten pounds
and now weighs more than he did
before his troubles began.

The foregoing statements are from
wellknown citizens of Nebraska, and
while astonishing in their import,
they are not really remarkable, as
thousands of people all over the
United States and Canada have tak-
en Tanlac with the same and, in
many cases, with far greater re-
sults.

Take for instance, the case of Mrs.
Viola Ives, 315 Cross street, Little
Rock, Ark., who gained forty pounds;
or that of Mrs. Don J. Perry, of 370
Quince street, Salt Lake City, Utah,
who gained twenty-eight pounds; or
that of Mrs. G. W. Williams, of Gad-
sden, Ala., who gained forty-eight
pounds; that of O. H. Mahaffey, of
Nashville, Tenn., who gained forty
pounds; or that Mrs. O. C. Cason, Ac-
worth, Ga., who gained thirty-five
pounds; or Mrs. A. M. Richards, of
803 Thirteenth street, Denver, Col.,
who gained eighteen pounds; Mrs.
Mamie O'Neill, of 2611 1/2 Welton st.,
Denver, Colo., who gained eighteen
pounds; John McNamee, of 419
Church street, Salt Lake City, who
gained sixteen pounds, and thou-
sands of others too numerous to
mention.

Tanalac is sold in Dakota City by
Neiswanger Pharmacy.—Adv.

County Agent's Field Notes

C. R. Young, County Agent

In one day last week we were
called to visit three herds of hogs,
all affected with enteritis. This
is a new disease to many, but its
rapid spread leads us to think that
it will be but a short time until it
is as well known as cholera. It
characterizes itself by cheesy areas
on the large intestines. These
may be extremely small or as large
as a half dollar. On posting a hog
they are easily noticed through the
tissue by the whitish color. If
the intestine is opened, the larger
areas will generally be found black,
which, when scraped away presents
the mealy, cheesy substance. As
one farmer said, the whole intestine
was nearly eaten through by the
disease. In earlier stages, while
yet small, the black covering is not
found. This makes it harder to
see on opening the intestine. Ex-
cept in very acute forms, the hogs
linger on for considerable time,
often becoming very poor. Their
temperature is normal or below. It
affects young and old hogs alike.

One form of this disease character-
izes itself by lumps, generally on
the snout. Where these are pres-
ent, the form already described is
generally there also.

The treatment is simple, and
where carefully followed, very ef-
fective. It consists of putting a
couple pounds of sulphate of copper
(blue stone) into a barrel of water.
Use this water making all sops and
for soaking feed. See that the hogs
get considerable quantity of this for
a week. It may be necessary to
reduce the amount of feed to get
them to eat. Sulphate of copper
has an emetic effect on some hogs
so may cause them to vomit, in
which the treatment may be dis-
continued for a few feeds. As the
water is used from the barrel more
may be added until the blue stone
is all dissolved. Some authorities
suggest the use of a dose of salts
before giving this treatment. If
worms are present they should be
expelled as a preliminary treat-
ment. The germs are passed out
in the feces so that the yards
should be carefully cleaned and
disinfected after each attack.

Sweet Clover Grows in Favor

Sweet clover as sheep and cattle
pasture is growing in favor at the
College of Agriculture of the Uni-
versity of Nebraska. It has been
demonstrated this summer that
sweet clover will stand drought much
better than blue grass. It can be
pastured at all times by sheep and
cattle. While it is usually sowed in
the spring, it would probably get a
good start if not sowed until late
in the summer, especially with fa-
vorable weather. About 15 lbs. to
the acre is the right amount of
seed.
